Lip slur practice should be a regular part of ones personal routine.

These exercises are based on the lip slur #'s 13-15 from Max Schlossberg's Daily Drills.

Begin the exercises starting with (A, B, C) then move to (A1, B1, C1, D)

Be flexible and challenge yourself - Don't settle but always grow and develop

How to approach playing these lip slurs:

- 1. Hold horn parallel to the floor using a light loose grip
- 2. Hear the sound in your head and breath in air
- 3. Pucker lips and blow out air evenly throughout each exercise
- 4. Play the exercises soft resting between each phrase
- 5. Once comfortable with exercises expand range by moving to next overtone and up an octave
- 6. Develop flexibility by adding more difficult exercises
